OSHA Compliance Trainer's Guide for Maintenance Employees - Final Exam

Q1. What is the purpose of OSHA?

- To promote workplace safety.
- To ensure compliance for violations.
- To track workplace injuries and illnesses.
- All of the above.

Q2. If your facility experiences a high rate of workplace injuries, you may be subject to a:

- Increased inspection.
- Fine.
- Severe penalty.
- None of the above.

Q3. Employees must provide their employees with:

- proper training for the task they'll be performing.
- written safety instructions.
- uniforms.
- all of the above.

Q4. What does the word "safety" mean?

- Nothing in accidents.
- A state of being safe.
- Freedom from risk.
- None of the above.

Q5. If you see something unsafe, what should you do?

- Bring this to the attention of your supervisor.
- Contact OSHA.
- Leave for the safety staff to deal with.
- None of the above.

Q6. How often should the internal inspection be conducted?

- Annually.
- Quarterly.
- Monthly.
- None of the above.

Q7. The four elements of a good emergency action plan include safety training, designated employees, an evacuation plan and:

- A central gathering place.
- A designated phone to call 911.
- A monthly safety meeting.
- None of the above.

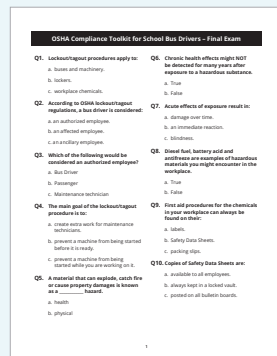

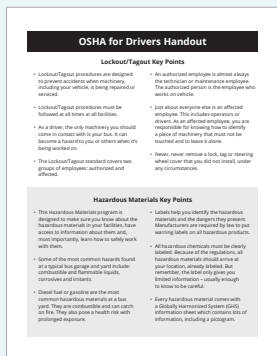

Q8. There should be two exits from most buildings. All employees should:

- Know where the exits are.
- Know the exits are located or not.
- Know the exits are located or not.
- None of the above.

50 Question Final Exam

For Drivers

Three Video-Based Training Programs

15 Question Final Exam

The course has been designed to make it easy to provide all the required training and to ensure all involved know the safe practices to follow.

Using the process guide will ensure the required documentation is maintained.

Posting and completing the calendar will provide a visual to encourage full compliance.
